

ASHISH KOLLI

ashish.n.kolli@gmail.com | (469)-562-9779 | New York, New York | [Portfolio](#) | [LinkedIn](#)

Product builder specializing in prototyping agentic infrastructure to drive product 0 to 1. Background in large-scale spatial architectural systems (semiconductor fabrication facility design) bridging digital/physical workflows. Built and launched sustainable scalability for mom-and-pop shops. Designed and pitched a modular severe weather preparedness product.

EDUCATION

Northwestern University, Master of Science in Product Design & Development 2025 - 2026
GPA: 3.78/4.00 | Key Coursework: Agentic Product Development, Innovation Management | Activities: Baja SAE, Formula.
California Polytechnic State University, Bachelor of Architecture, Morphosis Fellow 2019 - 2024
5-year professional degree; trained in complex systems architecture, scale, CMF, and end-to-end design development.

RELEVANT EXPERIENCE

Product Consultant - [Arohai](#) June 2026 - Present

- Conducted 6 interviews with mom-and-pop shop owners that identified internal growth struggles rooted at expanding beyond one location and made a franchise roadmap to standardize and scale business model strategy.
- Piloted dashboard and launched with **5 international restaurant brands** across the Dallas Fort-Worth Metroplex for one reporting cycle and successfully converted them into supported customers following projected adoption.
- Recovered a projected **\$150k** per month with Toast-compatible B2B-CRM SaaS platform internally for Bawarchi Biryani that reigned in 7 rogue franchisees and enforced compliance for 29 locations along with 2 new locations.

Newell Brands Graduate Capstone - [ReadyVault](#) Sept 2025 - June 2026

- Discovered a \$400M customer segment through 26 user interviews targeting single family homeowners' pain points around severe weather preparedness that drove product discovery, vision and roadmap.
- Drove the research, ideation and product development of a digital/physical modular product system from **0 to 1**, prioritizing backlog over 3 design sprints to build and continuously improve prototypes from usability studies.
- Obtained **funding validation** from Newell Brands Design VP and placed first at Northwestern pitch day from VC investor panel by owning the end-to-end GTM and willingness-to-pay studies that drove pricing strategy.

Associate Fire Protection Engineer - Jensen Hughes Aug 2024 - Aug 2025

- Managed the development of 12 fire sprinkler, fire alarm, and smoke control fire suppression system projects for **TSMC semiconductor** chip plants and airport terminals to adhere to local and national life safety codes.
- Led redesign of internal QA/QC review workflow by streamlining development approval timelines and speeding up review gates up to 40% faster between design and engineering for faster implementation feedback.
- Drove cross-functional collaboration between engineering, architecture, construction, and regulatory authorities, to accelerate technical decisions for infrastructure deliverables and improved compliance accuracy by 45%.

INTERNSHIPS

Tesla Motors - Retail Design Intern: Iterated retail strategy over 2 design sprints to prototype a **brand refresh** that launched across 500+ centers. Executed retail program across 45+ locations saving 10% in projected annual costs.
Morphosis/Payette - Designer and Fabricator: Pioneered a **design services division** that designed and built 25+ high-impact physical models to drive project decisions concerning design choices across education and laboratory.

CORE COMPETENCIES

Product Strategy: Product Discovery, Vision, and Sense, User Research, Agile Development, Go-to-Market Strategy
Development Tools: Jira, Figma, Miro, DScout, Notion, Excel, SQL, DScout, ClaudeCode, Google Analytics, Cursor.
Design & CAD Stack: Rhino, Revit, AutoCAD, Grasshopper, SolidWorks, Photoshop, Illustrator, Sketchup, DV Resolve.
Relevant Activities: Drone Pilot, Street Photographer, Gravel Cyclist, LEGO MOC Builder, Arc Welder, Woodworker.
