

ASHISH KOLLI

ashish.n.kolli@gmail.com | (469)-562-9779 | [Portfolio](#) | [LinkedIn](#)

Builder specializing in prototyping agentic infrastructure to drive product 0 to 1. Launched CRM platform to sustainably scale mom-and-pop shops. Managed product team developing a severe weather preparedness ecosystem winning best-in-class.

EDUCATION

Northwestern University, Master of Science in Product Design & Development Management 2025 - 2026

GPA: 3.78/4.00 | Key Coursework: Agentic Product Development, Business Model Strategy | Activities: Baja SAE, Formula.

California Polytechnic State University, Bachelor of Architecture, 2022 Morphosis Fellowship 2019 - 2024

5-year NAAB accredited degree; trained in complex systems architecture, scale, CMF, and end-to-end design development.

RELEVANT EXPERIENCE

Product Founder - [AroHai](#) June 2026 - Present

- Identified scaling bottlenecks for a 1.3M small retail business domestic market rooted in expanding beyond one location and defined a franchisor-franchisee roadmap to own end-to-end development of a CRM SaaS platform.
- Recovered \$150k in franchising fee revenue per month during a 4 week pilot with [Bawarchi Biryani](#) reaching 85% compliance across 29 locations and increased customer **acquisition (+6%)**, **retention (+11%)** and **revenue (+3%)**.
- Built pricing strategy and customer relationship pipeline earning 2 client annual subscriptions for 30+ restaurants generating a projected \$95k in annual revenue.

Graduate Capstone - Rubbermaid - [ReadyVault](#) September 2025 - June 2026

- Discovered a \$400M customer segment through 26 user interviews targeting single family homeowners' pain points around severe weather preparedness that drove product discovery, roadmap, along with pricing strategy.
- Drove the research, ideation and development of a digital/physical modular product ecosystem from 0 to 1, prioritizing backlog over 3 design sprints rapidly A/B testing digital and physical systems.
- Obtained **funding validation** from Newell Brands Design VP and placed first at Northwestern Pitch Day from executive investors based on a GTM plan and pricing strategy earning us a highly profitable 3.9X LTV:CAC ratio.

Associate Fire Protection Engineer - Jensen Hughes August 2024 - August 2025

- Managed the development of 12 fire sprinkler, fire alarm, and smoke control fire suppression system projects for TSMC semiconductor chip plants and airport terminals to adhere to local and national life safety codes.
- Led redesign of internal QA/QC review workflow by streamlining development approval timelines and speeding up review gates up to 40% faster between design and engineering for faster implementation feedback.
- Drove cross-functional collaboration between engineering, architecture, construction, and regulatory authorities, to accelerate technical decisions for infrastructure deliverables and improved review compliance accuracy by 45%.

INTERNSHIPS & LEADERSHIP

Tesla Motors - Retail Design Intern: Iterated retail strategy over 2 design sprints to prototype a brand refresh that launched across 500+ centers. Executed retail program across 45+ locations saving 10% in projected annual infrastructure costs.

Morphosis/Payette - Designer and Fabricator: Awarded fellowship to intern under Pritzker Prize-winning architect Thom Mayne. Pioneered a design services division that built 23+ scale models impacting design development across 14 projects.

CORE COMPETENCIES

Product Strategy: Product Discovery, Vision, and Sense, User Research, Agile Development, Go-to-Market Strategy

Development Tools: Jira, Figma, Miro, DScout, Notion, Excel, SQL, DScout, ClaudeCode, Google Analytics, Cursor.

Design & CAD Stack: Rhino, Revit, AutoCAD, Grasshopper, SolidWorks, Photoshop, Illustrator, Sketchup, DV Resolve.
